## A Great Success: 2008 H.M. Sweeny Co. Trade Show & Picnic

By Peter Heliotis

We would like to begin by expressing our sincere appreciation to our loyal customers for your continued patronage of our business. At H.M. Sweeny Co., we are well aware that it is loyal customers like you who are largely responsible for helping us successfully operate for over a century. We would also like to extend our gratitude to our vendors, without whom, this also would not be possible.

Thanks to you, this year's Trade Show & Picnic was a big success, boasting the highest attendance in years. We were blessed with great weather, delicious food, and most importantly, the support of our customers. Our vendors stayed busy presenting our many products on display and we hope that you found them helpful. Our technical consultant, Bill Brown, was helpful in sharing his expertise with those who sought his advice.

**Mr. O'Connor, our Educational Coordinator**, was hard at work as well, promoting our educational classes, which our students agree are very thorough and informative in all aspects of HVAC.

**WE DID IT AGAIN !!!**

**Mr. Gary Baker of Baldor** presented us with the **Baldor Eagle Award for Outstanding Distributor in 2007**. Thanks again for all of your hard work in making sure that we run successfully and productively.

**Outstanding Distributor**

We would also like to thank our loyal customers for their support and attendance. We gave away Sweeny's chairs to those who successfully completed our golf putting challenge. **Congratulations to the following customers who successfully completed the putting challenge and won a Collapsible Sweeny's Chair:** Chris Martz, David Calobong, Augustine Barnes, Joe Keirn, Felix Samuel, Horace Bush, Dennis Matthews, Stanley Broadley, John Gant, Just Kazee & David Legerwood, and Jay Johnson.

# Congratulations!!!

We would like to extend our congratulations to the following customers who won our great door prizes:

Russell Hager of  
Collington won a  
Ritchie T-Shirt

Phillip Alexander of  
So. Mgmt. Co. won a  
Ritchie T-Shirt

Brian Cooper of  
Edgewood Mgmt.

**Telephone: (301) 322-9100**

**Fax: (301) 322-1562**

#### Background Information about the Educational Program:

The Overall Concept of the Educational Program: to blend all aspects of Thermodynamic theory with on-the-job skill-building. This concept is successful because it is a result of tremendous career experience and success (over 40 years). Our seminars have helped thousands become acquainted with the industry and further develop their skills. The goal of our program is to provide our students with the ability to broaden their wealth of knowledge in the HVAC field, which in turn helps them gain a wider scope of possible job opportunities. \*We also have helped many people receive their EPA certification as well (Look Above).\*

**It's getting to be that time of the year again, folks! During these next couple of busy months, make sure to stop by any of our locations to check out our new and complete fan line. Our new line delivers outstanding performance and value, while also providing quiet operation, efficiency and ease of installation.**

- We are now supplying an even wider assortment of products for moving air. Our products are currently being used in many industrial, commercial, and residential applications.
- We offer a wide arrangement of fans and blowers as well as impellers constructed of various material including: cast aluminum, glass reinforced polypropylene and plastic.
- For commercial and residential applications, we offer products for bathroom exhaust, kitchen range hoods, as well as laundry ventilation.
- Also, when we combine this great line of products, with our proven expertise in the HVAC field, we can help you establish the necessary and precise flow rates.
- If for some reason our line cannot cover your needs, we will work with you to develop a custom fan.
- In addition to our core line of air moving products, we also offer products for regulating and controlling air flow.
- We are able to provide both manual and motorized operation to aid you in fine-tuning of air flow.
- It is important to note each one of our products is meticulously constructed for efficiency, durability and low noise. Our fan blades have an adjustable pitch to allow in-the-field changes in order to achieve optimal air flow.

## Introductory Special!!!

## BUY 6 GET 1 FREE!!!!

We've got thermostats for all of your needs including: universal programmable, touchscreen, fan coil, mechanical, 5-2 programmable outlet, line voltage, and many more!!

### **With Summertime nearing, now is the time to check out our new line of thermostats**

- Our thermostats combine value and innovation, with intuitive design, easy programing and superior aesthetics.
- They are made to the highest quality standards and have proven versatility. There is proven long term reliability and they also sport a rugged design, while still looking stylish.
- The installation of our thermostats is very simple and intuitive. Many of them can be programmed with no instructions at all.
- Also, if for some reason you run into a problem with your newly purchased thermostat, we are only a phone call away at: (301) 322-9100, to provide you with expert support backed by 40+ years of experience in the HVAC field.
- Our thermostats also provide you with peace of mind as they come with a 3-year warranty, which is regarded as the most comprehensive guarantee available in the industry today.
